Today's Dealings Strongly Influenced by London.

STOCKS WERE DEPRESSED

Market Assumed Firm Tone After First Hour.

COPPERS VERY WEAK IN LONDON

Only a Small Number of Railway Issues Attracted Interest-Little Alteration in Money Conditions.

Special Dispatch to The Star.

NEW YORK, July 16.-At the outset of the dealings upon the stock exchange today the market derived its tone chiefly from London, where American stocks were depressed in common with the other departments of the market at that point. London's influence in the loca' dealings was emphasized by the fact that foreign houses were sellers to the catent of about 15,000 shares, chiefly of Union Pacific.

There was no special explanation of the heavy tone shown by American stocks in the London market, except that the cabled advices reported that the reaction in the New York market after the first hour of business yesterday was not liked there.

Such local selling as 'was conducted in the early dealings was probably based in large measure upon the same fact. At all events, there was an utter dearth of novel developments of any importance calculated to shape speculative sentiment in one di-

rection or another.

Before the end of the first half hour of trading the market assumed a firm tone, and with the course of the morning a number of the active railroad shares scored advances ranging from one to two points. As has been the case of late, however, there was a marked falling away in activity in the afternoon, and price movements were characterized by greater irregularity. Decided weakness in all the copper stocks was a feature of the London market and in the local trading. Amalgamated Copper was among the active issues comparatively heavy. Further declines in the quotations for copper metal accounted for the weak-ness in copper securities, both here and

The Railway List.

In the railway list there was the same monotonous convergence of interest upon a small number of stocks that has been the case for several months past. It would be almost superfluous to add that these were Union Pacific, Reading, St. Paul, Northern Pacific and Great Northern preferred.

The two last named were exceptionally firm, and there were revived rumors that the joint control of the Burlington prop-erty would be superseded by the single control of that road by the Great North-ern, but there was nothing in the transaction in the joint Burlington 4 per cent Otherwise there was no news except of a routine character, and little gossip of

novelty attaching to the transactions in The Harriman Probe.

It did not appear to be the case that the report of the interstate commerce commission upon its investigation of the Harriman system carried much further weight in the dealings in Union Pacific, which moved in common with the remainder of the market. but much interest was taken in the rejoinder to the committee's report, which had been half promised by the head of the

Union Pacific system.

Money market circumstances and other fundamental conditions showed no sub-stantial alteration. Rates for loans on call averaged a shade below yesterday's mean

The banks' gain in their operations with subtreasury since last Friday was \$1,925,000, some portion of which was de-rived from the slow presentation of the matured 4 per cent government bonds. Up to this morning there was, however, still outstanding more than \$17,000,000 of the

#### THE COTTON MARKETS.

NEW YORK, July 16.- The cotton market opened steady at an advance of 15 points on July, which sold at 11.70 on the call, and of 3a5 points on later positions on covering, and some further support from recent buyers. During the early session the market worked up to a net gain of about 10a12 points on the active months, July being practically neglected, but turned irregular during the middle of the morning, with subsequent fluctuations narrow.

The advance was checked by realizing

> NEW YORK, July 16 .- After the publication of the bank statement on Saturday some large stock market operators who for some months had held aloof from the market were led to believe that monetary conditions were not as bad as has been represented, and accordingly bought stocks on a moderate scale. Yesterday, during the first hour of trading, they were naturally confident that they had acted wisely in entering the market again, but later in the day had as good reason for regretting their action. Conservative interests were greatly displeased to see the market bid up so rapidly during the first hour, and expressed the opinion that it would keep out the very class of buyers which it is desired to attract, rather than to induce them to take stocks at this time. It is believed also that as a result of their experience yesterday the large operators who thought it was time to buy stocks will leave the market altogether alone for some little time to come.

An operator who has been a powerful factor in the market speculatively from time to time, and who on the big breaks last spring was credited with making very large profits, has told his friends within the last twenty-four hours that there is no question about the cheapness of nearly all the stocks isted on the stock exchange, but that he does not look for special activity in the near future. He believes, however, that near future. stocks bought and paid for at about present prices will yield a handsome profit in due time. He does not believe that large specucommitments should be made on margin basis.

It is understood that the earnings of the orincipal lines in the Rock Island system for the current month thus far have been even better than was expected by those in control of the properties. The Rock Island interests would not have been surprised if the gross returns beginning with July had shown at least a moderate falling off in comparison with previous months of this year. The estimated figures for the first week of July were highly satisfactory, very substantial increases being shown on the Rock Island proper, the 'Frisco and the Chicago and Eastern Illinois. The Evansville and Terre Haute, which is not an im-portant factor in the system, reported a small decrease in comparison with the cor responding week of last year.

#### LOCAL LABOR SITUATION.

Lull Follows Lively Meeting of the Bricklavers. There was a lull in the local labor situ-

ation today following a rather lively meeting of the Bricklayers' Union last night at Costello's hall. At that meeting, it is said, the decision was reached to call a strike on every building on which non-union bricklayers or stone masons were employed, and to declare a strike in the stoneyard of every dealer supplying stone for any building on which non-union men are employed. It is stated that the decision as to the stone dealers will affect a number of con struction companies and firms engaged in the stone business.

Much elation resulted from the announce-ment that a large firm of building supplies dealers had "straightened out" with the building trades and restored its union roof and metal workers to their positions.

The report was circulated that the brick-layers and stone masons employed on the new Marine Hospital structure being erected at Brightwood went out on strike yesterday.
Officers of the Employers' Association

stated today that the proposition of the Bricklayers' Union to go on strike on every building on which non-union bricklayers or stone masons may be employed, will not result in any change in the situation. "If the union bricklayers and stone masons remain at work," said one of the officers, "there will not be any occasion to employ non-unionists."

Stand-History of

RALEIGH, N. C., July 16.-The trial of the Anson crowd of lynchers for the murder of John V. Johnson, a white man Capt. Charles Crawford, 20th Infantry.

By direction of the President, Capt. John charged with killing his brother-in-law, mob took from the Anson county jail at Wadesboro and hanged to a tree, riddling the body with bullets, did not really begin till this morning, as far as the introduction of evidence is concerned.

After the special term of court ordered by the governor was formally opened at Monroe, N. C., yesterday Judge Peebles adjourned the day's session till 2:30 p.m. Hays Company, respectively, on official The remainder of the afternoon was consumed in the selection of the jury, although it was secured in quicker time than either side anticipated, and at 5 o'clock the jury have been ordered to take the transport to was impaneled. The defense surprised the sail from San Francisco, Cal., about Austate somewhat by offering John Jones. one of the twenty-three indicted men, as the defendant in the first case to be tried instead of Zeke Lewis, the defendant first placed in the dock at the first trial. The state does not appear to be at any disadvantage on this account, however, as witnesses today identified Jones. According the crowd and in the jail yard "with a gun

The first witness on the stand this morn ing was Sheriff John C. Bogan of Anson, who completed the testimony begun last evening. He was very certain on the cross examination today, as well as the direct examination, of the identity of John Jones. He also identified about a dozen of the other men who are under indictment.

Sheriff Fired on by the Mob. Sheriff Bogan said he was fired on by the mob. That as he acted as jailor as well as sheriff, the lynchers aroused him and his son and daughter. They made the old plea for admission, namely, declaring they had a prisoner to put in jail. As soon as he unlocked the door the mob rushed in, and after being refused keys to the cell where Johnson was confined they threatened to shoot the man through the bars of the cell. Then he gave them the keys. They dragged the alleged half-crazy white man from the cell, and with a rope around his neck start-ed with him, dragging him at times, down the road to Monroe.

The cross-examination by the defense this morning did not shake materially any of the sheriff's statements. Among the prisoners whom he today stated he recognized are Zeke Lewis, John Jones (the "test-case" defendant), Tom

Husted, Nivens, B. F. Timmons, W. A. Nivens,

James Swink and John and Joseph Meacham. The case of Zeke Lewis was taken up first for the purpose of making it a test case. Counsel for the defendant (they have a number of the most prominent lawyers in the state retained to defend them) will move to quash the indictment, for the reason that "it appears on the face of the bill that the offense was committed, if cor mitted at all, in another county (Anson) and not in this (Union) county," and also for the reason that the first count in

the bill charges that the defendants "conspired with others" without naming the others and without adding "others to the jury unknown." (It is said that there were fifty or a hundred in the mob that lynched Johnson, but the state has never been able to identify them all.)

Both of these motions were allowed by

Judge Shaw; thereupon the state appealed to the state supreme court, the latter court reversing Judge Shaw's ruling and ordering a new trial. This new trial is that which began at Monroe today.

The lynching of the white man Johnson, on the night of May 28, 1906, was a cold-blooded affair. Johnson who was of on the night of May 28, 1996, was a cold-blooded affair. Johnson, who was of un-sound mind, it is claimed, had killed his brother-in-law, Guion Johnson. His friends and the prisoner himself claimed that the and the prisoner himself claimed that the killing was done in a tight. Johnson had been tried for murder and the jury failed to agree. He was in jail at Wadesboro, the county seat of Anson county, awaiting a second trial, when the mob broke into the jail and took Johnson out and hung him to a tree, his body being cut down by officers afterward. It had been riddled with bullets after the rope had done its work. bullets after the rope had done its work.

The lynching of a white man for such an offense, and under such uncalled-for cir-cumstances, angered the governor very much. Gov. Glenn called upon the solicitor of that judicial district, and went to Anson county with him. He employed, in the name of the state, several other good lawyers to assist in the prosecution, and at once set the sheriff and his deputies to work to detect and arrest the members of the mob, few, if any, of which would ever have been discovered in the ordinary course.

Mortimer O. Stabler Indorsed by Republicans of Montgomery County. Special Correspondence of The Star. ROCKVILLE, Md., July 15, 1907.

Sentiment among Montgomery county republicans seems to be crystallizing in favor of Mr. Mortimer O. Stabler of Spencerville 136; Garrett, 144; Flim Flam. 140; Guard- as the most available man for chairman of the county committee. He is known to be Essex, 143. Also eligible-Grand Pa, 159; acceptable to both Mr. Thomas C. Noyes and Mr. Thomas Dawson, leaders of the respective factions of the party in the county, and as he is regarded as admirably fitted for the position, it is believed that the county committee soon to be elected will unanimously place him at its head.

> Encouraged by the signs of unhealthy conditions in the democratic party, the republicans of the county are understood to be preparing to place in the field the strongest ticket possible for them to nomi-nate. It is said that all factional differences have been settled and that for the first time in several years a united party will be behind the ticket to be nominated by the county convention to be held August 12. Republicans generally profess to believe that they have a royal chance to win all along the line this fall, and it is stated that nothing will be left undone by them to ac-

complish his result.
